# XT400 SERIES BUILT TOUGH TO DO BUSINESS BETTER

You need to communicate instantly without missing a beat – whether you're coordinating resources at the construction site or monitoring resources on the manufacturing line.

The XT400 SERIES two-way radios have the business smarts to help your teams work better together.

Enhanced durability

Loud, clear audio

Voice prompts

Long battery life

# ENHANCED DURABILITY

**WE DESIGN AND ENGINEER THE XT400 SERIES RIGHT THE FIRST TIME TO MINIMIZE COSTLY REPAIRS AND DOWNTIME.**

While US Military 810 C, D, E, F and G plus IP55 may be the standards for other radio manufacturers, they are the starting point for our XT400 SERIES.

These radios undergo Motorola's unique **ACCELERATED LIFE TESTING** (ALT). This rigorous laboratory testing simulates up to 5 years of field use, including...

	<b>BLOWING RAIN</b> Steady rainfall and wind for 30 minutes on every surface
	<b>VIBRATION</b> Up to nine hours of exposure to vibration that simulates the rigors that a radio could undergo while being carried or transported
	<b>SALT FOG</b> 48 hours of exposure
	<b>BLOWING DUST</b> Six hours of blowing dust on all surfaces
	<b>SHOCK</b> 18 shocks with a minimum G force of 40 G each
	<b>TEMPERATURE</b> Multiple hours of exposure to storage temperatures as low as -67° F and as high as 160° F

# PMR446 UNLICENSED FREQUENCIES

All XT400 SERIES radios utilise PMR446 unlicensed frequencies for easy, cost effective operations.

No subscription or call charges and 8 channels with user selectable privacy codes help ensure a clear signal.

**XT400 SERIES** radios are also compatible with any other radio operating on the same **PMR446** frequencies.

XTNi Series

XT400 SERIES

# VOICE PROMPTS

## INTERACT EASILY

Customised channel announcements tell you which channel you're on when you change it. So you can concentrate on serving customers, not removing the radio from a belt to see the channel.

**Designate 16 pre-recorded channel names that fit your departments, such as “Customer Service”, “Security”, “Maintenance” and more.**

“Security”

“Supervisor”

# LONG BATTERY LIFE

The custom XT400 SERIES Li-Ion battery packs are designed and manufactured to ensure durability.

**XT400 SERIES** radios ship as standard with a 2100 mAh Li-Ion battery providing up to 20 hrs\* of life.

**XT400 SERIES** battery life up to 20 hrs\*

\*5/5/90 with standard capacity battery and battery save feature on.

# TARGET VERTICAL MARKETS CONSTRUCTION

**Keep projects on track through better coordination of foremen, subcontractors and individual trades people.**

Clear, loud audio gets the message through and channel announcement allows you to communicate with different crews efficiently and without having to remove the radio from your belt.

# TARGET VERTICAL MARKETS

## PROPERTY MANAGEMENT

**Improve responsiveness from the ground up.**

The XT400 SERIES helps building managers, maintenance technicians, groundskeepers and security personnel respond quickly to tenant needs or emergencies to minimise costs and increase tenant satisfaction.

# TARGET VERTICAL MARKETS

## MANUFACTURING

**Hear above heavy equipment and high noise.**

Clear communication in noisy environments is essential to avoid downtime and respond quickly to problems or injuries. With exceptional audio and rugged construction, the XT400 SERIES is ideal for multi-shift operations.

# TARGET VERTICAL MARKETS

## HOSPITALITY

Helps you deliver excellent service and customer satisfaction.

Keeps staff connected, from the front desk and concierge to event planners and maintenance personnel.

Enhances staff productivity.

Enables fast response to guest needs, special events, spills and emergencies.

# TARGET VERTICAL MARKETS

## EDUCATION

Keep everyone in touch to help maintain order and enhance student safety.

For everyone from teachers and administrators to crossing patrol officers and maintenance personnel.

Enables quick response to any situation.

Helps prevent small problems from escalating into bigger ones.
